Please put a stop to the economically draining witch-hunt against Microsoft. This has gone on long enough. Microsoft has already agreed to hide its Internet Explorer icon from the desktop the fact is this case against Microsoft is little more than welfare for Netscape and other Microsoft competitors with not a nickel going to those supposedly harmed by Microsoft the computer user. I do not feel I have been harmed. This is just another method for states to get free money and a terrible precedent for the future not only in terms of computer technology but all sorts of innovations in the most dynamic industry the world has ever seen. Please put a stop to this travesty of justice now. Thank you
